Part III DETAILED ACTION

Claims 1-21 are currently pending.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14,21 drawn to method for identifying a neuroamidase inhibitor, classified in class 702, subclass 27.
- II. Claims 15-17, drawn to data storage medium.
- III. Claims 18-20, drawn to a computer, classified in class 364, subclass 528.1.

The inventions are distinct, each from the other because of the following reasons:

The computer-readable medium of Group II can contain any type of information, other than the obtained by method I. Further, the structure information obtained by method of Group I is non-functional descriptive material which does not bring distinguishing characteristics to the medium of Group II.

The computer-based system of Group II, comprising data storage, memory, processor and display, can execute any program determining 3D structure unrelated to particular coordinates of claim 1.

Art Unit: 1631

Where inventions are related as disclosed but are distinct as claimed, restriction may be proper. (MPEP 806).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

If applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims which depend from or otherwise include all the limitations of the allowable product claim will be rejoined. (MPEP 821.04)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one

Art Unit: 1631

claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (703) 305-4506.
